

PATROL Groundsheets

All Patrol Tents come with optional groundsheets.
There are two types of groundsheets available.

Since the groundsheet is separate from your tent, you
can easily roll the tent walls for ventilation.

BASIC GROUNDSHEET

This groundsheet consists of two separate parts
that can be laid loose inside the tent.

BATHTUB GROUNDSHEET

This groundsheet is made of one single piece and
has upstanding walls.

On the upstanding edge of the groundsheet,
there is a Velcro strip all around. The tent has
Velcro flaps that can be attached to the
groundsheet Velcro strip.
